

GCSE' Level Results

Phoenix Collegiate achieves its best results ever!!

Phoenix wishes congratulations to its GCSE students, who have produced some phenomenal examinations results this year at Phoenix. Being the largest secondary school in Sandwell with over 1850 students, the attainment 8 measure has improved by almost 4 points

Chair of governors Leigh Pepper said that the students had produced a truly fabulous set of results that students, parents, staff and the whole school should be immensely proud of. This has been with the backdrop of the school being a building site for the last four years and the national issue with the last minute changes to Btec grades.

Mike Smith Head teacher added:

“I am delighted to see so many of our students celebrating today after gaining some fantastic GCSE grades and fulfilling their potential. For many of them it is the culmination of 5 years of dedication, determination and hard work. I along with the rest of the staff and governors here at Phoenix wish our students all the very best for their futures as some leave Phoenix either to begin apprenticeships or employment. Finally I would like to congratulate and thank everyone who has helped contribute to their success”.
